

Maya Okafor

Mobile app developer - iOS, Android and React Native

maya@example.com · (512) 555-0142 · Austin, Texas · example.com

Mobile developer with eight years on iOS and Android, from a transit ticket wallet used at the turnstile to a courier app that runs all shift. I build offline-first apps for small teams and hand them over tested and documented.

EXPERIENCE

Independent mobile developer

2023-03 – Present

Self-employed · Austin, Texas

Contract builds for small product teams. Six apps shipped to both stores, each handed over with tests and a release runbook.

Senior iOS Engineer

2019-06 – 2023-02

Fernway · Austin, Texas

Led the ticket wallet in Swift and SwiftUI. Cut cold start from 2.8 to 0.9 seconds and made tickets open without a signal.

Mobile Engineer

2016-08 – 2019-05

Parcelhop · Dallas, Texas

Built the Android courier app in Kotlin: route lists, proof of delivery and an offline queue that syncs back in range.

EDUCATION

BS Computer Science

2012-08 – 2016-05

Hill Country State University · San Marcos, Texas

Senior project: a campus shuttle tracker for Android.

Certificate in Human-Computer Interaction

2018-01 – 2018-06

Lone Oak Extension School · Online

Evening course in usability testing and accessible interfaces.
